ConnectCard™ Terms and Conditions

The ConnectCard is Port Authority of Allegheny County’s electronic fare media for use at bus fareboxes, light rail vehicle fareboxes, light rail station entrances, the Monongahela Incline and eventually other ancillary services and uses on Port Authority’s public transit system and the systems of participating regional public transit agencies. It utilizes smart card technology to load, store and use all types of Port Authority (and other participating regional transit agencies’) fare products including full fare (weekly, monthly, annual and stored value) and half fare (10-trip and stored value) products. The ConnectCard replaces flash-pass based fare products such as monthly flash passes and trip tickets.

The Terms and Conditions constitute your ConnectCard Agreement and shall apply to all activity with respect to the use of the ConnectCard.

Please read the Terms and Conditions carefully and keep a copy for your records. These terms and conditions may be updated by Port Authority at any time and for any reason, without notice, so it is important that you check these Terms and Conditions regularly for changes.

Balance Protection and Replacement

Proper registration and activation of your ConnectCard entitles you to Balance Protection. With Balance Protection, the value on your card will be transferred to a replacement card at the time Port Authority (or other participating regional transit agency) is properly notified by you that your card is lost or stolen. Port Authority reserves the right to charge a non-refundable replacement fee for the replacement of a ConnectCard. If you have not registered your ConnectCard for Balance Protection, the value remaining on the lost/stolen/damaged card will not be available for transfer to a replacement card if lost or stolen. Any replacement fee for a new ConnectCard that Port Authority may charge will apply to both registered and non-registered ConnectCards.

Effective January 1, 2017, Port Authority will charge a $1.00 fee for both new and replacement ConnectCards. This fee may be subject to further adjustment in the future, at Port Authority’s sole discretion and upon providing reasonable notice to the public of any further planned adjustments in this fee.

Information required for ConnectCard registration includes your full legal name, street address and phone number, as well as providing answers to security questions that will enable verification of your identity. In order to register your card to receive Balance Protection, you must provide Port Authority with this information to validate identity and to replace value if your card is lost, stolen, damaged, malfunctions or is otherwise defective. You must inform Port Authority of any changes to required information in order to maintain the privileges of Balance Protection.

If your ConnectCard is lost or stolen, you must notify Port Authority immediately by calling Port Authority’s Customer Service Line at 412- 442-2000. The Customer Service Department operates Monday through Friday between the hours of 6:00 a.m. to 7:00 p.m. and between the hours of 8:00 a.m. to 4:30 p.m. on weekends and holidays. The TTY phone number for hearing-impaired and speech-impaired customers is 412-231-7007. You may also visit Port Authority’s Downtown Service Center currently located at 534 Smithfield Street, Downtown
Pittsburgh. The Downtown Service Center is open to the public Monday through Friday between the hours of 7:30 a.m. to 5:00 p.m. At the time of reporting a ConnectCard lost or stolen, you may also request that a replacement ConnectCard be provided to you for pick-up at the Downtown Service Center. The remaining balance on the lost, stolen, damaged, malfunctioning or defective ConnectCard will be transferred to a replacement ConnectCard by Downtown Service Center personnel.

Once you notify Port Authority that your ConnectCard is lost, stolen, damaged, malfunctioning or defective, your ConnectCard will be deactivated and it will no longer be accepted in Port Authority’s fare collection system. Once your ConnectCard is deactivated, it may not be reactivated or used again; you will need to obtain a replacement ConnectCard and have the remaining balance or fare products from that card transferred to a replacement card by Port Authority. You will be financially responsible for any rides taken or stored value depleted through the use of your lost or stolen ConnectCard until you properly notify Port Authority (including a three day period post-reporting for completion of pending transactions at the time of reporting) that your ConnectCard is lost, stolen or damaged. You will not be financially responsible for unauthorized use of your lost or stolen ConnectCard following the three day waiting/processing period after you properly report your card missing. Damaged, malfunctioning or otherwise defective cards should be returned to Port Authority.

**IMPORTANT NOTE:** Customers should not delete blocked, lost or stolen ConnectCards from their web accounts until:

1. The customer calls the Customer Service Department to block their card;
2. A replacement card is issued by the Customer Service Center;
3. The customer linked their new card to their web account.
4. The final stored value balance has been transferred to the new card.

Deleting a ConnectCard from a customer’s account before the above steps are completed could result in the customer’s loss of remaining stored value on the lost or stolen ConnectCard because deletion before these steps are taken removes Port Authority’s ability to look up the lost or stolen card number to verify the remaining stored value eligible for transfer.

**ConnectCard Cost**

Initially, ConnectCard will be free with the purchase and loading of a fare product or stored value onto a ConnectCard. However, Port Authority reserves the right to charge a fee for a ConnectCard at its sole discretion and upon providing reasonable notice to the public of its intention to do so.

Effective January 1, 2017, Port Authority will charge a $1.00 fee for both new and replacement ConnectCards. This fee may be subject to further adjustment in the future, at Port Authority’s sole discretion and upon providing reasonable notice to the public of any further planned adjustments in this fee.

**Fare Products Available to a ConnectCard Customer**

Any standard Port Authority fare product that was available under the old “flash pass” system is now available to load onto a ConnectCard including:

1. **Stored Value:** Load a cash value onto a ConnectCard, as the equivalent to the flash pass based paper ten-trip ticket books. The card functions similar to a debit card. Applicable fares or fees are deducted each time you present the card for use at fare collection points and eventually
other ancillary services and uses on Port Authority’s public transit system and the systems of participating regional public transit agencies. The maximum cash balance that can be stored on a ConnectCard is $200.00. Stored Value can be used to pay Port Authority bus, light rail and incline fares; stored value on a ConnectCard can now also be utilized to pay fares and take rides on participating regional transit agency partner systems. Value placed on a ConnectCard is not redeemable for cash. Stored value goes dormant on a ConnectCard after two (2) years of inactivity; however, a ConnectCard can be reactivated at any time by visiting Port Authority’s Downtown Service Center.

2. **Period-Based Passes:** You may load a calendar weekly, monthly or annual pass product on the ConnectCard. These Period-Based Passes allow for unlimited rides for the time period selected and purchased.

3. **Transfers:** If you choose to pay your fare with stored value, you will be entitled to a bus-to-bus, bus-to-rail, rail-to-bus, bus-to-Mon Incline and rail-to-Mon Incline (and vice versa) transfer valid for three (3) hours from the time that the first fare is paid for the then applicable transfer fee set by Port Authority. The transfer will be electronically encoded onto your ConnectCard. You will not be issued a separate paper or magnetic transfer. If you are using a period-based pass, you are entitled to an unlimited number of rides within the validity period; encoded transfers are not necessary as long as the period-based pass is valid.

You may load any combination of fare products described above onto a single ConnectCard. For example, you may load $20 in stored value and also load either a weekly or monthly pass onto the same card. At any one time, a ConnectCard may contain stored value, one active period-based fare product and one pending period-based fare product. Upon presentation at a fare collection point, the system will check for and process the active period-based fare product first. If there are no active period-based fare products available on a ConnectCard, the system will then deduct the appropriate fare from the stored value balance on the card.

*NOTE: Half-fare ConnectCards are available for eligible individuals.

**NOTE: Port Authority now has a ConnectCard just for children known as the Kids Reduced Fare ConnectCard or Kids ConnectCard. The new Kids ConnectCard is for children ages 6-11 and enables them to ride the bus, T or Mon Incline for half fare. This card may also be loaded with Stored Cash Value (up to $200); a 10-Trip Pass or a weekly or monthly pass at Port Authority’s applicable Half-Fare rates. Information for parents and legal guardians on applying for a Kids ConnectCard is available by visiting the Downtown Service Center or calling Port Authority’s Customer Service Line at 412-442-2000. Kids ConnectCards automatically expire on the child’s 12th birthday, at which time the expired Kids ConnectCard can be exchanged for a full fare ConnectCard with any remaining Stored Value transferred onto the full fare ConnectCard at that time.

***ADDITIONAL NOTES:***

These Terms and Conditions constitute the ConnecTix Agreement and apply to all transactions and purchases that utilize ConnecTix.

Intended Use of ConnecTix

The ConnecTix is a heavy paper stock ticket that utilizes smart card technology to load, store and use certain types of Port Authority fare products. The ConnecTix will fail with repeated use and normal wear and tear, so care should be taken to store and use it properly. If you are a regular Port Authority or other participating regional transit agency customer, you are strongly encouraged to obtain a ConnectCard, Port Authority’s extended use, plastic smart card, to take advantage of a wider selection of Port Authority fare products, including Balance Protection. The limited use ConnecTix functions like cash and does not provide for replacement in the event the card is lost, stolen or damaged.

*NOTE: All ConnecTix are strictly non-transferable.

Fare Products Available to a ConnecTix Customer

ConnecTix can be utilized for ten trip ticket, weekly and single trip fare products. A ConnecTix loaded with value can be utilized within thirty (30) days of activating the card during first use at a fare collection point.

Effective January 1, 2017, a Day Pass fare product will also be available on ConnecTix. Day Passes will be valid on all Port Authority transit vehicles from the time of purchase and activation until the end of the applicable Port Authority service day the subject Day Pass is purchased on.

If you require multiple fare products, such as period-based passes and stored value, on the same fare media, you must obtain a ConnectCard extended use smart card.
